RE: Review and Acceptance into the Provincial Register of Reports: Archaeological Assessment Report Entitled, "Archaeological Assessment (Stages 1 & 2), RE Smith Falls 6, Part Lot 3, Con. 1, Township of Rideau Lakes, United Counties of Leeds and Grenville, Ontario" Report Dated June 2010, Report Received July 23, 2010. Revised Report Received September 1, 2010. MCL Project Information Form Number P040-341-2010, MCL RIMS Number HD00485. FIT-FUL9X6J.

Dear Mr. O'Neal:

This office has reviewed the above-mentioned report, which has been submitted to this Ministry as a condition of licensing in accordance with Part VI of the Ontario Heritage Act, R.S.O. 1990, c 0.18. This review is to ensure that the licensed professional consultant archaeologist has met the terms and conditions of their archaeological licence, that archaeological sites have been identified and documented according to the 1993 technical guidelines set by the Ministry and that the archaeological fieldwork and report recommendations ensure the conservation, protection and preservation of the cultural heritage of Ontario.

As the result of our review, this Ministry accepts the above titled report into the Provincial register of archaeological reports. The report indicates that 11 archaeological sites, Locations 1 to 11, were found on the subject property and it is recommended that two of these, Locations 9 and 11, be considered significant enough to warrant Stage 3 investigations and Locations 1 to 8 and Location 10 be considered sufficiently documented. This Ministry concurs with the recommendation that the provincial interest in the archaeological sites identified as Locations 1 to 8 and Location 10 has been addressed.

Should you require any further information regarding this matter, please feel free to contact me.

Sincerely,

Jim Sherratt
Archaeology Review Officer
